### FALL INTO CANNABIS

---

Cannabis may be used to help with varying conditions and finding the right product can be a challenge. The most common way of consuming cannabis is smoking flower, but there are many other ways it can be consumed. We offer many varieties of flower, vapes, edibles, topicals, tinctures, concentrates and capsules. All of our products are lab tested and offered in both Indica and Sativa. Indica may be helpful when you are ready to sleep or relax, while Sativa may offer a more energizing effect.

Each cannabis strain has different components called terpenes (oils) and cannabinoids. Each strain offers a unique aroma that range from an earthy, musky, to a fruity or citrus flavor. The effects are known as an entourage effect and have varying results based on the naturally occurring chemical compounds in each plant. Come by our store and speak with our experienced team to learn more about ways you may use cannabis to help elevate your relief.
