NOTHING LIKE THE REAL THING

Cannabis Health is committed to promoting the health and safety of our medical cannabis cardholders.

As part of our commitment to patients we want to provide accurate information provided by the South Dakota Department of Health. Cannabis sold by a certified dispensary may be helpful with chronic pain, poor sleep, anxiety, depression, and PTSD.

Why would you buy your cannabis at a dispensary instead of from a Delta product in a "shop"?

Cannabis provided by dispensaries in South Dakota is regulated and endorsed by the South Dakota Department of Health. This means it is tested for metals and pesticides and is not a synthesized (synthetic) product. It is natural, labeled, and is tested for purity (THC level).

Delta-8 THC, Delta 8 THCO, Delta-9 THCO, Delta 10 THC, THCP, THCV, CBN, and HHC and others are all alternative cannabinoids in synthesized forms. They can be

found in some CBD/smoke shops, and gas stations.

These products are hemp derived, not tested, are chemically treated/sprayed, and are often imported from Asia and are known to cause health problems and death. These products are not regulated by the South Dakota Department of Health.

There is no evidence that says there are "therapeutic benefits of hemp derived/analog/synthesized cannabinoids including Delta-8 THC" and is not endorsed by the South Dakota Department of Health.

Please ask your Medical Technician (MT) for more information about our suppliers and the products they provide to keep you safe. Happy Holidays!

Please find more information at https://medcannabis.sd.gov/docs/Delta-8_Factsheet.pdf
