WHERE DID 420 COME FROM?

A group of high schoolers in Northern California created the idea of 420 in the early 1970's. The origin has been somewhat murky as some say it is the police code for cannabis possession while others say it came from Bob Dylan's "Rainy Day Woman No. 12 & 35". Since the inception April 20th has been known as the international holiday for celebration and cannabis consumption. While some celebrate our freedom to consume cannabis others take this opportunity to learn more about cannabis products and how they may help relieve ailments. This day has become the most popular cannabis holiday with Oil day "710" coming in second and is increasing in popularity.

As Winter ends, Spring arrives and our temperatures increase, please remember to keep your concentrates cool (especially vapor cartridges). We would like to take this opportunity to share information with you about cannabis products we offer that may provide relief. Come by the store to speak with one of our friendly Medical Technicians to learn more about our products while enjoying the best sales of the year! Happy 420!
